### **MGDeadbody Mobile Freezer Classic-2Model**

Murickens group An ISO 9001:2015 certified company introduces two registered brand name MG and Flyline with low maintenance, competitive price and with the aim of power saving. In 1990 Murickens Group commenced the production in the field of Electronics, they were keen to develop a MG Dead body Mobile Mortuary which could be of help to the bereaved to preserve the departed for such time, that, the relatives arrive to pay their respect. Now Murickens Group currently has seven types of dead body preserving mobile mortuaries. The main difference between them is the exterior body materials used in the design, the top opening cover material and its design.

Being the first manufacturer and supplier of mobile mortuary in this field ,with an experience of more than 30-years.We have thousands of satisfied customers in India and different parts of the world.

Our valued and reputed clients list includes The CISF 7th Battalion Military Cam Chennai, Command hospital Chandimandir, St. Ursula hospital Pune, Shanti memorial hospital Cuttack, Dept. of Space Sriharikota, Birla research institute, Malayalee assosation Bhopal..etc. (outside Kerala). **Govt. hospitals** - Aluva, Kottayam, Varkala, Mulanthuruthy, ..etc. **Co-operate Banks** - Marayoor service co-operative bank Idukki, Karukutty service co-operative bank, etc.. (Kerala) Al-Amin medical service Bangladesh, Saudi etc.(exporting)

MG-Classic-2:-As the name suggests, this is a system with a classic look. The top glass cover is made of pure glass. This system has only one component. i.e. the body part. At the bottom of this body part, the compressor and condenser coil is situated. The top cover has a specially designed steel frame with pure glass, which gives this model a regal look. It is complaint-free as it uses the highest quality compressor. In MG-Classic 2 model, lights fitted inside the mortuary allow us to see the corpses clearly. This model is Extra - large with opening Door - Single U Shape, 8mm pure Glass inserted in a specially designed attractive steel frame.

Since this system is entirely made up of Steel, it has an aesthetic look. The capillary pipe is made up of copper which is complaint-free as compared to other systems that use Al/GI capillary pipes. MG-Classic-2 also contains a steel tray which is used for mounting dead body. Almost all types of bodies can be accommodated inside this system since the dimension is of standard type. The whole body of the MG-Classic 2 is made up of mirror polished 304 steel which provide it an elegant look.
